

# **I'm gonna kiss my Lover**

## **(Verse)**

They stampede through a city on a lie  
No code to break and no rule to live by  
Just some half baked idea and a bag left unattended  
Full of pieces from a mindset that can never quite be mended

Now we're living in a novel, it's flying off the shelf  
I hold my neighbour's hand and then I softly tell myself

## **(chorus)**

I'm gonna kiss my lover, on London Bridge  
I'm gonna kiss my lover at a concert hall in front of the  
Manchester kids  
I'm gonna kiss my lover by a Paris grave,  
When my heartbeat's back to normal and there ain't nobody left to  
save

## **(verse 2)**

If you're having coffee sip it slower  
If she means something to you just make sure to God you show  
her  
Because these acts are random, misguided and violent  
They can break a fragile heart and leave a loud mouthed city silent

And this oscar winning movie will glue you to your seat  
the value for your ticket can be tripled on the street

## **(chorus 2)**

I'm gonna kiss my lover, on London Bridge  
I'm gonna kiss my lover at a concert hall in front of the  
Manchester kids

I'm gonna kiss my lover by a Paris grave,  
When my heartbeat's back to normal, and there ain't no one to save

I'm gonna kiss my lover when the knife goes in  
I'm gonna kiss my lover when they reinstate the rightful  
consequence of sin

I'm gonna kiss my lover after the war  
And I'll kiss her till there ain't a God in heaven left worth fighting  
for

Gonna kiss my, gonna kiss my, gonna kiss my, gonna kiss my  
lover oh yea

I'm gonna kiss my lover when the deal is made  
I'm gonna kiss my lover when the sorrow on the statue's face  
begins to fade

I'm gonna kiss my lover, in a burning field,  
When the faith's been resurrected and the truth has been revealed

I'm gonna kiss my lover, on London Bridge  
I'm gonna kiss my lover at a concert hall in front of the  
Manchester kids

I'm gonna kiss my lover by a Paris grave,  
When my heartbeat's back to normal and there ain't nobody left to  
save
